SUMMARY

MERN Stack Developer with 1 year of professional experience and a 3-month internship in full-stack web development. Proficient in React.js, Next.js, Node.js, Express.js, MongoDB, and Supabase, with strong knowledge of Git, GitHub, and Visual Studio Code. Experienced in developing responsive, scalable, and user-friendly web applications while collaborating in team environments. Passionate about learning new technologies, solving real-world problems, and delivering high-quality software solutions.

WORK EXPERIENCE

Mern-Stack Developer Wajid & Co. | 1 Year

June, 2025 - March, 2026

- Developed and maintained the company's business website using the MERN stack (React.js, Node.js, Express.js, and MongoDB).
- Redesigned and enhanced website features to improve performance, responsiveness, and user experience.
- Identified and resolved bugs and technical issues in the company's existing website, ensuring stability and reliability.
- Collaborated with the team to implement new functionalities and optimize overall website performance.

Frontend Developer Intern (MERN Stack) Ezitech Software House | 3 Months

June, 2024 – Sept, 2024

- Developed responsive and interactive user interfaces using React.js for multiple web applications.
- Built and maintained frontend components while following modern UI/UX and responsive design principles.
- Collaborated with senior developers to integrate frontend features with backend APIs and improve application performance.
- Gained practical experience with the MERN stack, Git, GitHub, and industry-standard development workflows.

EDUCATION

Bachelor of Science in Software Engineering

- NFC IET Multan, Pakistan

2022 - 2026

Intermediate in Pre-Engineering

- Punjab College, Multan

2020 - 2022

PROJECTS

TuneFlow – Music Streaming Web Application

- Developed a responsive music streaming web application using React.js.
- Implemented an intuitive user interface with seamless navigation and dynamic content rendering.
- Focused on performance, responsive design, and an engaging user experience.

Wajid & Co. – Business Website

- Designed and developed the official business website for Wajid & Co. using React.js.
- Built responsive, user-friendly pages to showcase the company's services and business information.
- Enhanced website performance, usability, and overall user experience while implementing modern web development practices.
